Puustelli USA Announces Its First 114-Unit Multifamily New Construction Row Home Project In North America

[August 31, 2017– Minneapolis, MN] Puustelli, the leading kitchen cabinetry manufacturer in Finland, announces its first multifamily project partnership in North America.

Alliance Contracting Inc. introduces **Bluestem Commons – Opening December 2017**. Bluestem Commons is the Mankato area's newest and first of its kind new home development with 114 generously appointed row home units featuring Puustelli kitchen and bath cabinetry solutions throughout the entire development. Discover the modern amenities of these row homes at Bluestem Commons — www.bluestemcommons.com.

“The Puustelli kitchen and bath cabinetry system was chosen for its great look, function, and feel. We wanted to give our homeowners a kitchen and bath cabinetry package that was going to differentiate us as a developer and builder,” said Jeremy Brown, President – Alliance Contracting Inc.

The Puustelli Miinus cabinetry line embodies the very best Scandinavian design and quality practices while setting a new standard for sustainability. The visionary concept of Puustelli's Miinus kitchen system is simple: Doing More with Less — Beautiful on the Outside and Smart on the Inside.

“We are proud to be partnering with a developer who demonstrates thought leadership, who sees the future of kitchen systems, and wants to do things a little bit better for our future generations,” said Mikko Juola, President – Puustelli USA.
