

Custom on the Prairie

This fall, Puustelli USA proudly participated in the Central Minnesota Builders Association Fall Tour of Homes in collaboration with Schoenberg Construction and Sheree Vincent of Fusion Designed. The **Avon House** features Puustelli custom cabinetry throughout – including the stunning kitchen, with views for days and special custom built-in bookcases in the living room. More Than a Kitchen

"It's not just a new kitchen, it's a new home!
The Hanson family found their almost perfect home in Edina. The 1950s split-entry rambler - that once had been a model home - had promise, but was clearly tired. They collaborated with Puustelli USA to update the kitchen and create the perfect space for their family. Hear more about the collaboration from the Hansons: <http://puustelliusa.com/hanson-video-testimonial>

"If you're looking to embark on a remodel and you want something different from the ordinary, than Puustelli is highly recommended. Our space is beautiful, functional, timeless and we absolutely love it!"

-Deb Hanson
